CABLE TIE LABEL

Product introduction

The label is an electronic label encapsulated with polypropylene. The label is unidirectional and non-detachable. Working frequency is 125KHz, 13.56mhz, 860-960mhz can be used worldwide, where the RFID chip will store unique identification and other updated information.

Physical Parameters

Products size 60*28*4mm

Packaging materials ABS

Environmental parameters

Working temperature -40°C~65°C

storage rage temperature -40°C~85°C

Environmental parameters

Operating frequency 125KHZ,13.56MHZ,860-920MHZ

CHIP UHF(H3)

Data retention 10years

Programming Cycles 100000 times

Read Distance 2M

Business application

Application field Logistics management, animal traceability, food safety traceability and other industries
